News in early 2013

We are pleased to announce the availability of two new versions of our applications: **Atlence Click'n Study** (previously Questions-Reponses) and **Atlence FileTime Manager** (previously Justal'heure).

Atlence Click'n Study (previously Questions-Réponses)

We started the development of the next release of Questions-Reponses. In the coming months, we will propose several successive updates to improve the program and add new features. This month, the new version 1.6 offers a new module which includes all the tools installed and provides access to recently modified quizzes. The quick launch module has also been improved.

For the new release (version 1.7), we will rewrite and upgrade the "Designer" tool. Then, the "Students" tool (results management) will be enhanced with many new features.

For this occasion and this major update (the program had not changed since 7 years!), enjoy a **30% off discount on professional licenses** until **June 2013!**

To order: <http://atlence.com/order.html>

Request for donations

Advertising revenue is less and less important (ad blocker tool, lower income and so far), we count on your generosity to send us your donations. This will help us to support the development of the new software such as Click'n Study, including website hosting, campaigns in relevant institutions (schools, associations, and so on), and so far.

[Donate](#)

Atlence FileTime Manager (previously Justal'heure)

The software has been completely rewritten, to offer a modern tool compatible with newer systems (Windows® Vista, Windows 7 and Windows 8).

For this occasion, **enjoy a 30% off discount on professional licenses** until **June 2013!**
